Booklist (Starred Review) on 2312 "

2312 paints an absolutely credible and astonishingly beautiful picture of the centuries to come, of the sort of schism and war, the art and love, the industry and ethics that might emerge from humanity going to space without conquering it and without solving all its problems."?

The story takes place in the year 2312 when humanity is busily populating the solar system while Earth itself sinks ever further into the swamp of pollution and overpopulation that we are experiencing today. There are three or four main characters, depending on how you look at it.

“Humans were still not only the cheapest robots around, but also, for many tasks, the only robots that could do the job. They were self-reproducing robots too.

2312 is a tale of two books. On one hand KSR does what he always does on these types of things, he paints a vivid picture of what the future could be like so wonderful that you can almost feel the cold of space on the back of your neck. The world he has created draws from the Mars trilogy but stands alone with new and interesting places.

2015 . A wonderful hotel on a wonderful location. Our Hoxton experience was wonderful. The design of the place is amazing, it feels very well thought off but without ever becoming overly hipster. The place is warm, homely, nice.
