Cancer Problem Solution Johanna
Budwig

Johanna Budwig claims to have had a 90% cure rate for cancer. Most of us don't hear about this because the information is suppressed by the medical establishment. I look forward to the day when, in the land of the "free" and home of the brave, people are truly free to pursue whatever form of healthcare they wish.

Dr Budwig theorized that restricting the ingestion of the "bad fats" (trans-fats, hydrogenated and saturated fats), while at the same time ingesting plenty of the "good fats" (along with a diet of fresh living foods and juices) would rejuvenate even cancerous cells, oxygenating them once again and healing the sufferer in a healthy way from the inside.
