Llamas que Atraen es una novela romántica con escenas de misterio de principio a fin. Entrelaza historias fascinantes que aunque ficticias pudieron haber sido reales; son mundos que existen o existieron, mundos recreados por el autor.

In this story, a giraffe, a monkey, and a hippopotamus all overcome their fears and face a danger together.

MILLY KAUFMAN IS an ordinary American teenager living in Vermont--until she meets Pablo, a new student at her high school. His exotic accent, strange fashion sense, and intense interest in Milly force her to confront her identity as an adopted child from Pablo's native country. As their relationship grows, Milly decides to undertake a courageous journey to her homeland and along the way discovers the story of her birth is intertwined with the story of a country recovering from a brutal history. Beautifully written by reknowned author Julia Alvarez, Finding Miracles examines the emotional complexity of familial relationships and the miracles of everyday life.

In this impressive 'verse legend' Espronceda creates an original interpretation of the famous Don Juan legend whereby he produces a Romantic 'counter-text' which gives voice to what we now recognise as a central part of the modern philosophical condition: the Romantic vision of an all-pervasive cosmic injustice. Professor Cardwell, in his introduction, shows how in the person of Felix de Montemar, Espronceda has created one of Europe's first rebellious literary heroes, standing alone, noble and defiant, in the face of all the evil and pain in the world. Thus Espronceda takes his place alongside other major European Romantic writers; Byron, Lermontov, Heine, Vigny, Leopardi and Mickiewicz; expressing, as they do, man's existential protest, noblest ideals and his modern sense of human condition which directly informs our own twentieth century literary achievements. Davies' meticulous translation of this poem, mirroring the metrical and stylistic virtuosity of Espronceda's original, presents it for the first time to English readers, since its composition 150 years ago.
