~~Enzymes | Edexcel IGCSE Biology Revision Notes~~

What do you know about enzymes? Do you think you will pass this quiz? Enzymes are complex proteins that cause a specific chemical change in the body. They are produced by living organisms to generate biochemical reactions in the body. Enzymes help break down the foods we eat so that the body can use them for energy. Take this quiz to learn more about enzymes.

~~Science Quiz: Biology: Enzymes - Ducksters~~

Enzyme engineering can be used to broaden the substrate range of an enzyme, increase the stability at elevated temperature, at acidic pH, or in organic solvents, and to improve enantioselectivity. To be able to efficiently screen mutant libraries, a high-throughput screening system is crucial (for a review see Chapter 7.2 ).
