When an accident leaves Tej and Liam stranded in the wilderness, they must survive the elements, and the bear that is chasing them, long enough to get back to civilization. Simultaneous.

The riveting story of the exploration of the final frontier of our planet—the deep ocean—and history-making mission to reach the bottom of all five seas.

Humankind has explored every continent on earth, climbed its tallest mountains, and gone into space. But the largest areas of our planet remain largely a mystery: the deep oceans. At over 36,000 feet deep, these areas closest to earth's core have remained nearly impossible to reach—until now. Technological innovations, engineering breakthroughs and the derring-do of a team of explorers, led by explorer

Victor Vescovo, brought together an audacious global quest to dive to the deepest points of all five oceans for the first time in history. The expedition pushed technology to the limits, mapped hidden landscapes, discover previously unknown life forms and began to piece together how life in the deep oceans effects our planet—but it was far from easy. Expedition Deep Ocean is the inside story of this exploration of one of the most unforgiving and mysterious places on our planet, including the site of the Titanic wreck and the little-understood Hadal Zone. Vescovo and his team would design the most advanced deep-diving submersible ever built, where the pressure on the sub is 8 tons per square inch—the equivalent of having 292 fueled and fully loaded 747s stacked on top of it. And then there were hurricane-laden ocean waters and the byzantine web of global

oceanography politics. Expedition Deep Ocean reveals the marvelous and other-worldly life found in all five deep ocean trenches, including several new species that have posed as of yet unanswered questions about survival and migration from ocean to ocean. Then there are the newly discovered sea mounts that cause tsunamis when they are broken by shifting subduction plates and jammed back into the earth crust, something that can now be studied to predict future disasters. Filled with high drama, adventure and the thrill of discovery, Expedition Deep Ocean celebrates courage and ingenuity and reveals the majesty and meaning of the deep ocean.

Praise for *The Whole Lie* "The Massachusetts gubernatorial race forms the backdrop for Ulfelder's excellent sequel to his Edgar-finalist debut, *Purgatory Chasm*... Readers will want to see more of Ulfelder's tough but vulnerable lead, whose narration offers a warts-and-all view of his multifaceted character." – Publishers Weekly, starred review Savvy hadn't changed. She was smarter than you and didn't mind letting you know it. She'd whip you up and down trying to get her way. But we weren't lovers any more—and she'd stopped being a Barnburner long ago. Still... Conway Sax, the no-nonsense auto mechanic with a knack for solving difficult problems for the Barnburners, the renegade AA group who saved his life, is back in *The Whole*

Lie. And for once, he thinks normalcy is within reach. He's opening a new garage, and he's finally moved in with longtime girlfriend Charlene. The end of his parole is finally in sight. Then along comes Savannah Kane: smart, smoky, and a pusher of men's buttons. Seven years ago, Conway helped her disappear—but not before they had a sizzling, knock-down-drag-out affair. Now she's back with a shocking revelation: she's the mother of a six-year-old boy. Savvy claims her son's father is billionaire Bert Saginaw, but Conway (not to mention Charlene) knows she's back for more than just a family reunion. Saginaw wants to be Lieutenant Governor of Massachusetts. Savvy wants to get paid. Conway wants nothing to do with either of them. But when Savvy turns up brutally murdered, he's got no choice but to sort lies from truth – even though doing so may cost him his freedom, his

lover, and his life in this thrilling and heart-wrenching follow-up to critically acclaimed novel *Purgatory Chasm*, in the tradition of Robert B. Parker and Dennis Lehane. Praise for Steve Ulfelder and *Purgatory Chasm* "Ulfelder smoothly steers his plot from one hairpin twist to the next... Conway [is] both tough and vulnerable, a man who has made too many mistakes in his life and, unfortunately, will make even more. *Purgatory Chasm* is a superb beginning for an author who shows much promise." —South Florida Sun-Sentinel "A refreshing new character solving hardcore crimes.... crisp plotting, hard-boiled style and realistic dialogue." —Associated Press "Combines elements of the thriller with tales of tangled families. Violence runs through the novel, but Ulfelder tempers it with compassion — and evocative prose. *Purgatory Chasm* may be hardboiled, but it's heart-wrenching, too."

–Richmond Times-Dispatch "Working throughout is the edgy, self-effacing voice of a flawed main character, a good guy with plenty of baggage who's just trying stay alive and to get it right this time."

–The Boston Globe "Ulfelder couples precise, evocative prose with an original private investigator in his compelling hard-boiled debut.... Ulfelder smoothly navigates the many plot twists, and effortlessly introduces wrinkles in his protagonist's backstory that enhance the character." –Publishers Weekly, starred review

They'll pay him a fortune to find a killer tornado for their movie. He knows the risks all too well, but he never imagined just how dangerous the perfect storm could be. Chuck Rittenburg was one of the most intrepid storm chasers in the country until a bad decision resulted in the death of

a young couple who'd paid to ride along. A decade later--broke, divorced, and estranged from his college-age children--he's got nothing left to lose. When a film producer offers Chuck one-million dollars to help find and photograph a deadly tornado in Oklahoma, Chuck sees a chance to earn his kids' respect again--and maybe his own. The situation quickly becomes about more than tracking a monster tornado for Hollywood. FBI Agent Gabi Medeiros insists on riding along. A burglary ring is targeting tornado-ravaged neighborhoods, and their tactics now include murder. With the stage set for a major heist, a deadly supercell, and a confrontation between Man and Nature on an epic scale, Chuck and his crew will be lucky to escape in one piece.

unprecedented milestone in human achievement. Silently, he dares dream that no matter what it takes he will one day become a part of the wonder he sees.

Thirty years later, now with children of his own, he watches in horror as a lifetime's ambition lands within his grasp.

Awakened to a dilemma of unimaginable magnitude, he faces a decision that could lead to overwhelmingly rich discoveries or result in humanity's greatest shame. But all is not as it appears to be. In the quest to satisfy ambition as well as garner acceptance and recognition, people do lie - to themselves and to others. How much control do we have over life? Who and what shapes our future? The answers are revealed in the most audacious expedition ever planned.
