~~Mental breakdown: warning signs and symptoms~~

Anxiety is the root cause of many of the difficulties experienced by people on the autism spectrum, and is often caused by things such as a change in routine, or sensory overload. Deborah Lipsky takes a practical look at what happens when things spiral out of control, exploring what leads to meltdowns and tantrums, and what can be done to help.

~~Three Stages of a Meltdown - What You Can Do About It~~

When I can neither flee nor quiet the alarm sounding in my mind, panic sets in and a meltdown occurs. The artificial calm demeanor I have created begins to collapse and it feels like the floor has dropped from beneath me. I feel as if I'm tumbling down a never-ending hole with nothing to grab onto, no way to prevent myself from falling apart.

~~When Your Mask Comes off and You Have a 'Meltdown' - The~~

Anxiety is the root cause of many of the difficulties experienced by people on the autism spectrum, and is often caused by things such as a change in routine, or sensory overload. Deborah Lipsky takes a practical look at what happens when things spiral out of control, exploring what leads to meltdowns and tantrums, and what can be done to help.

~~From Anxiety to Meltdown - The Systemic Shop Ltd~~

Constant anxiety can be extremely distressing for autistic people. It can lead to meltdowns, self-harm and depression. Common triggers include noisy environments and the difficulty of social interactions. It is important to identify what is causing a person's anxiety and then to take steps to reduce it.

~~Anxiety - Autism support - leading UK charity~~

Anxiety can be a masterful imposter. In children, it can sway away from the more typical avoidant, clingy behaviour and show itself as tantrums, meltdowns and aggression. As if anxiety wasn't hard enough to deal with! When children are under the influence of an anxious brain, their behaviour has nothing to do with wanting to push against the limits. They are often great kids who don't want ...

~~Anxiety or Aggression? When Anxiety in Children Looks Like~~

Lots of children who have a tendency to worry can find all this particularly hard and this can lead to increased anxiety, which can escalate into meltdowns and tantrums. It is likely that your...

~~My daughter (10) is having anxiety 'meltdowns'~~

Anxiety is a normal, human feeling of fear or panic. When we face stressful situations, it can set off our brain's in-built alarm bell system, which tells us something isn't right and that we need to deal with it. Our brain wants the difficult situation to go away, so it makes us feel more alert, stops us thinking about other things, and even pumps more blood to our legs to help us run ...

~~Anxiety - Young Minds~~

Anticipating a meltdown Many autistic people will show signs of distress before having a meltdown, which is sometimes referred to as the "rumble stage". They may start to exhibit signs of anxiety such as pacing, seek reassurance through repetitive questioning or physical signs such as rocking or becoming very still.

~~Meltdowns - a guide for all audiences~~

What causes a meltdown? A meltdown is caused by a feeling of being overwhelmed, acute anxiety and a sense of loss of control - it is most helpful to understand meltdowns as panic attacks, an external expression of an internal state, rather than as a 'behaviour' or choice or wilful defiance.

~~Meltdowns - PDA Society~~
