For undergraduate and graduate MIS courses. An in-depth look at how today's businesses use information technologies. Many businesses look for candidates who know how to use information systems, making a general understanding of information systems an asset to any business student. Laudon and Laudon continue to define the MIS course for all business majors by emphasizing how business objectives shape the application of new information systems and technologies.

For undergraduate and graduate MIS courses. This in-depth look at how today's businesses use information technologies is part of a complete learning package that includes the core text and extensive supplemental online

Read Free Mis Laudon 11th Edition

materials. The core text consists of 12 chapters with hands-on projects covering the most essential topics in MIS. An important part of the core text is the Video Case Study and Instructional Video Package: 24 video case studies (2 per chapter) plus 16 instructional videos that illustrate business uses of information systems, explain new technologies, and explore concepts. Videos are keyed to the topics of each chapter. Teaching and Learning Experience ; This program will provide a better teaching and learning experience—for you and your students. Here's how: Personalize learning with MyMISLab—the online homework, tutorial, and assessment program that fosters learning within and beyond the classroom. Cover the most essential topics in MIS using an integrated framework for describing and
