An abstract summarizes, usually in one paragraph of 300 words or less, the major aspects of the entire paper in a prescribed sequence that includes: 1) the overall purpose of the study and the research problem(s) you investigated; 2) the basic design of the study; 3) major findings or trends found as a result of your analysis; and, 4) a brief summary of your interpretations and conclusions.

[3. The Abstract - Organizing Your Social Sciences Research ...](#)

Also, this abstract doesn't overtly state the implications. It states only that the paper discusses the implications. While in most cases it's better to briefly summarize the results of the study, sometimes it's impossible to summarize the information in only a few sentences.

[10 Good Abstract Examples That Will Kickstart Your Brain](#)

The abstract should provide a quick and accurate summary of the paper, to help the reader decide whether the rest of the paper is worth reading. Keywords ensure that your paper is indexed well by databases and search engines, and thus improve the discoverability of your research. Therefore, keywords should be selected after careful consideration.
