Logic puzzles come in all shapes and sizes, but the kind of puzzles we offer here are most commonly referred to as "logic grid" puzzles. In each puzzle you are given a series of categories, and an equal number of options within each category. Each option is used once and only once. Your goal is to figure out which options are linked together based on a series of given clues.

The problem is that if you take just one, or if you take two from the same bottle, you will die a painful death. While using it, you hurriedly open the bottles and pour the tablets in your hand. Three tablets come down in your hand and you realize they look exactly the same and have same characteristics.

~~Logic Problem Brain Teaser | Genius Puzzles~~

Logic puzzles (also known as "logic grid puzzles") require the solver to deduce the relationships between different people, places and things based on a limited number of clues given in the puzzle. Remember: every item on the board belongs to one and only one person, no item will ever be shared. Using only the clues provided and simple deductive logic and reasoning, fill in the grid with X's and O's to determine the solution.
