How Cancer Saved Me: A One Year Diary of a Cancer Overcomer is a detailed account of Melbourne music teacher Wanda Hall and her experiences with breast cancer and rheumatoid arthritis. Diagnosed with invasive ductal carcinoma in 2015, Wanda embarked on a journey of meticulous research into diet, health and the medical system. In her diary she shares a wide range of experiences, from the very 'normal' days with her family and friends, to detailed analyses of many different foods, therapies and medical techniques, plus summaries of seminars, books and video presentations. Woven through the entire diary is her unwavering faith, which ultimately brings her to the place where she can call herself a 'cancer overcomer'. Her courageous decision to eschew traditional treatment methods and embrace a healthy diet, lifestyle and spiritual outlook makes this diary inspirational literature for all ages. Also included are sections with recipes, music pieces and a useful index.

This book was written by Al. Wolfson, who was given up to die before he was 21 years old. In 1948 he was at the point of death and the medical doctors gave up all hope of recovery. He turned away from medical "science" that offered no help and turned to the remedies found in the Bible and nature. He prayed and promised to work for God as long as he should live. That day he had a "dream" where an angel from heaven came into the room and talked with him and took the disease away. After the "dream", he rapidly recovered. Not forgetting his promise to work for God, as long as he should live, he has taught hundreds of sick people how to use only simple non-poisonous remedies.
