In the late eighteenth and early nineteenth centuries a profound change swept across Britain. The rapid advance of technology increased industrial productivity to a level previously unimaginable. To support this new technology, people flocked from the countryside into the cities to take jobs in the factories. The movement caused a great deal of social unrest as technology replaced many of the ...

However, it is fair to say that the majority of modern economic historians who study the industrial revolution believe that at least a slight increase in the material standard of living occurred. Since the introduction of reliable statistical evidence in Sir John Clapham's An Economic History of Modern Britain in 1926, it has become increasingly obvious that real wages rose.

[How the industrial revolution raised the quality of life](#) ...

The Industrial Revolution began in Britain in the 1700s and had a profound impact on the world. One of the main impacts it had was how it changed life for working-class people. First, the workers were exposed to horrendous working conditions in the factories and mines that emerged in the early years of the revolution.

[Living Conditions in Industrial Towns — History Crunch](#) ...

Life in Great Britain during the Industrial Revolution underwent rapid social and economic changes due to the developments of mechanized working methods based on the factory system and the steam engine.Work became more regimented, disciplined, and moved outside the home, and large segments of the rural population migrated to the cities, causing dramatic lifestyle changes.

[The Industrial Revolution Shire Living Histories](#)

The effects on living conditions of the industrial revolution have been very controversial, and were hotly debated by economic and social historians from the 1950s to the 1980s. A series of 1950s essays by Henry Phelps Brown and Sheila V. Hopkins later set the academic consensus that the bulk of the population, that was at the bottom of the social ladder, suffered severe reductions in their living standards. [106]
