Evil has infiltrated our world. His name is Oblivion and his touch is death. He devastates the planet, turning it into a twisted, barren world. A dark world. And Grant Borrows, the one man powerful enough to oppose him, is dead. As Grant's remaining friends learn the ultimate truth behind the events that shaped their lives, they secretly gather for one last battle. This showdown between good and evil will prove to every soul on earth that in the bitterest twilight, all is not lost. The world must never forget that even when life is merciless, it is not hopeless.

The thrilling sequel to the runaway bestseller *The Last Girl*. Zoey is not the woman she once was. She's watched her friends die at the hands of their captors, been hunted, and returned from the brink of death. Now she must find the truth about who she is. In search of the family she never knew, Zoey learns of personal records stored in an Idaho missile silo that may contain the information she and the other women seek. With the help of her group of newfound friends, Zoey travels to the missile facility, but among the records, they uncover information that leads to an insidious and horrific new foe: the Fae Trade, a macabre carnival of slavery and pain. Zoey's journey into the darkest parts of the human psyche brings her perilously close to the ever-thinning line between good and evil, and the final cost in her quest for justice might be her own humanity.

In the space of a breath, what he thought was his life...shattered. Grant Borrows has been Shifted- in the silence between heartbeats, his whole life fundamentally altered. There's another man in the world wearing his face and living his life. What's more, the man staring back from his mirror is a stranger. But the changes don't stop at skin-level. Inexplicably, he's able to affect objects around him by simply thinking about them. And as he soon learns, he's become the central figure in a vast web of intrigue that stretches from an underground global conspiracy to a prophecy dating back over seven thousand years. Enemies and allies find him at every turn, but one thing they learn all too soon is that you don't want to push Grant Borrows too far... Can destiny be undone? The players are ready. The game is in motion. And the pace is: Relentless. (The Dominion Trilogy Book 1)

The third thrilling Chronicles of the Invaders adventure from New York Times bestselling author John Connolly and Jennifer Ridyard mixes classic sci-fi with rich, character-driven plot, as Paul and Syl fight to save Earth from an enemy who is closer than ever. Syl Hellais and Paul Kerr have traveled through Derith, the mysterious wormhole from which no traveler has ever returned. Yet Derith's secrets are darker than they imagined, and trapped in a dimension beyond their own, they finally emerge to discover a universe that has moved on without them. Years have passed, and Civil War rages among the Illyri. It is whispered that the Earth is lost, prey to the alien parasites known as the Others, and other worlds will soon follow. Most shocking of all, the sinister Archmage Syrene of the Nairene Sisterhood has disappeared into

the bowels of the Sisterhood's lair. But before she cloistered herself, Archmage Syrene chose her replacement. The Sisterhood has a new leader, with her own plans for the future of her race. Now Syl and Paul, teenagers in a deadly adult world, must find a way to change the course of history and save the lives of billions. They have but one hope. For Syl Hellais is changing...

It is seven years after the first outbreak of "the Sweats" destroyed the world, almost overnight. Two refugees from the death and decay of London, Stevie Flint and Magnus McFall, have both washed up on the Orkney Islands. A rural community clinging to survival, the islands are home to a generation of youth who barely remember a time before the pandemic. One of them, Magnus' foster son, Shuggie, is fourteen years old and angry as hell: he and his young friends blame all adults for the loss of the technological and scientific wonders of the past. When the foster parents of Shug's girlfriend, Misty, are found murdered and the young couple vanishes without a trace, Magnus fears the worst. Refusing to believe they could have committed the crime, and in order to find Shuggie and Misty before something terrible happens to them, Magnus and Stevie set off on a quest into the decaying city of Glasgow--and into the heart of a post-apocalyptic landscape they tried to leave behind when they fled the chaotic streets of London.

Ghost Town is the hottest amusement park in the country, offering state-of-the-art chills and thrills involving the paranormal. The park's main ride is a haunted mansion that promises an encounter with a real ghost. When Maia Peters visits during her senior year of college, she's not expecting to be impressed. Maia grew up as the only child of a pair of world-renowned "ghost hunters," so the paranormal is nothing new. In fact, the ride feels pretty boring until the very end. There, a face appears from the mist. The face of Jordin Cole, a girl who disappeared from campus a year ago. Convinced what she saw wasn't a hoax and desperate to find answers to Jordin's disappearance, Maia launches into a quest for answers. Joined by Jordin's boyfriend--a pastor's kid with very different ideas about the spirit realm--Maia finds herself in a struggle against forces she never expected to confront.

2028-at írunk, és a világot egy új megbetegedés sújtja. Eleinte enyhébb emlékeztetéseket, majd később dühkitöréseket, végül elmebajt és halált okoz. A Losian-kórnak elnevezett betegség gyors lefolyású, és a rövid távú modellezések szerint elterjedésében hamarosan meghaladja az Alzheimer-t. Dr. Gillian Ryan neuroradiológus a Losian-kór egyik fő kutatója, területének legkiválóbb alakja. Az orvosi elhivatottság mellett különösen nagy a tét számára, hogy megfejtse a betegséget kiváltó okot, és megtalálja az ellenszert: a férjét már elvesztette, és hétéves lányánál is jelentkeztek a tünetek, legfeljebb évei lehetnek hátra. Az áttörés azonban a rengeteg munka és kísérlet ellenére elmarad, és megvonják tőle a kutatási támogatást. Nem sokkal később azonban váratlan megkeresést kap a NASA-tól: az egyik titkos átlátásukon felütötte a fejét a Losian-kór. A diagnózis elsősorban lehetetlennek tűnik, de a legénységen jelentkező tünetek kizárnak minden más lehetőséget. A szervezet felkéri Ryant, hogy tartson egy speciális alakulattal az úton, és fejtse meg a betegséget. Cserébe a kutatásának korlátlan finanszírozását ígérik neki. Az utazás azonban hamar rémálommá válik, a küldetést megmagyarázhatatlan és erőszakos események szakítják félbe. Minden kérdésessé válik – a küldetés igazi célja, a legénység indítéka és a végtelen úton gyilkos titkai. Joe Hart a lebilincselő tudományos-fantasztikus kaland és az agyfacsaró lélektani thriller e keverékével nemcsak a világban végtelen titkairól lebbenti fel a fátylat, hanem az emberi lélekben megbúvó még sötétebb ismeretlenről is.
