The Power of Limits: Proportional Harmonies in Nature, Art ...

The golden section has the powerful quality that division or expansion by this proportion always leads to harmonious growth. No matter how small or large is the division, there is never anything "left over" to create disharmony. This limiting factor is of transcendental power, thus "The Power of Limits."

The Power of Limits: Proportional Harmonies in Nature, Art ...

The Power of Limits was inspired by those simple discoveries of harmony. The author then went on to investigate and measure hundreds of patterns--ancient and modern, minute and vast. His discovery, vividly illustrated here, is that certain proportions occur over and over again in all these forms.
