Too Much Talk: A West African Folktale is a retelling of a traditional tale about a king who refuses to believe that the yams, fish, and cloth can talk until his royal throne agrees with him. It is a story which should be encouraged to be read with children out aloud with plenty of participation from them; primarily I think it should be read as a whole class during carpet time.

"Too Much Talk" is basically an African folk tale about inanimate objects that speak. The book starts out following an African farmer who sets out to dig up some yams. The yam speaks to the farmer and the farmer freaks out. After that, the farmer encounters other village residents who ask him why he is running around in the heat of the day.
