Upsetting the Offset engages critically with the political economy of carbon markets. It presents a range of case studies and critiques from around the world, showing how the scam of carbon markets affects the lives of communities. But the book doesn't stop there. It also presents a number of alternatives to carbon markets which enable communities to live in real low-carbon futures.

The Golden age of Indian industry, as it now seems in retrospect, lasted from 1951 to '62. and industrialists of the lime were not afraid to think ahead and plan big. Among the entrepreneurs who led this Industrial resurgence, four were particularly outstanding, G.D. Birla, Walchand Hirachand, Kasturbhai Lalbhai and, J.R.D. Tata. Gita Piramal, author of the acclaimed Business Maharajas, sensitively recreates the Lives and Times of these four titans of industry. She draws upon hitherto untapped sources of information to Sketch her profiles, making this perhaps the closest Look at these legends this fair. Thought provoking and incisive. Easier and Cheaper to Set Up Than Raised Beds! For homeowners young and old looking for the easiest and most affordable way to grow the most vegetables, the Raised Row method shared in this breakthrough book is the new go-to choice. In the past decade, raised bed gardening has been wildly popular, but it requires buying wood or another material to build the raised beds, which quickly becomes expensive and labor intense. A raised row garden uses just soil and mulch, such as shredded leaves, to create raised growing rows and walking rows. This method is more budget-friendly, natural and just as effective to control weeds and see an impressive harvest your first year. Jim and Mary Competti, founders of the blog Old World Garden Farms, are the leaders of this gardening revolution. They 've perfected and streamlined their method over several years. They spend only a few minutes per day maintaining a large garden that provides their family with food for the whole year. In this book, they share their secrets so anyone can do it too. Raised rows utilize straw mulch, compost and cover crops to enrich the soil you have and keep down weeds naturally. This way, no backbreaking overturning of the beds is required, as it is for traditional row gardening. Now, readers can work less and enjoy the fruits of their gardens more!

The effects of a disaster on healthcare can range from conditions that immediately besiege the system with large numbers of patients, to catastrophes that strain its long-term sustainability. Nurses, as frontline health professionals, must have an understanding of the situations they may face before, during and after a disaster and they must develop the skills and strategies to provide effective and immediate care. *International Disaster Nursing* is the first truly comprehensive and internationally focused resource to address the diversity of issues and myriad scenarios that nurses and other health personnel could encounter during a disaster event. This text defines the many roles of the nurse within a multidisciplinary team, and aids the implementation of the community's disaster plans in a crisis. With an alarming increase in the occurrence of disasters in the last decade, *International Disaster Nursing* is the hallmark text in the field.
